## KEY FEATURES

### Ergoflex Seating System™

Backrest flexes with you through the paddling stroke for optimal support. You can adjust its height to fit your position. EVA padded seat eliminates hot spots and supports your thighs on even the longest trips.

### Quick Lock Hatch

Stow and retrieve your essentials in a flash with the easy-access quick lock hatch. A simple quarter turn of the latches opens and closes the watertight hatch, protecting your belongings.

### Fluid Steering System™ rudder

Keeps you on course during challenging maneuvers and strong crosswinds. Stiff, yet light, composite construction adds precision.

### Cockpit table

A great place to keep important items secure and within reach. The watertight day hatch and dry bag keep valuables dry and safe. Plus, the console doubles as a lip for a spray skirt.

### Scotty™ swivel rod holder

This Scotty™ bait caster rod holder is a great way to secure and protect your rod and reel. It holds a bait caster reel in a cushioned cradle. Standard on all Elie fishing kayaks.
